Alfa Laval wins SEK 50 million waste heat recovery order

Alfa Laval – a world leader in heat transfer, centrifugal separation and fluid handling – has won an order to supply a waste heat recovery system to a power plant in Southeast Asia. The order has a value of approximately SEK 50 million. It was booked in late September in the Boiler & Gas Systems unit of the Marine Division, with deliveries scheduled for 2018.

The Alfa Laval equipment will be installed in a power plant in Indonesia where the system will recover heat and generate steam for the steam turbine.

“This is the first engine based combined cycle plant in Indonesia and it proves that our customers recognize Alfa Laval as a supplier of reliable and high-performing systems to the power industry,” says Peter Leifland, President of the Marine Division.

Did you know that... according to EIA (The U.S. Energy Information Administration) the rapidly growing economies of Southeast Asia together represent over 4% of global energy investment?

About Alfa Laval

Alfa Laval is a leading global provider of specialized products and engineering solutions based on its key technologies of heat transfer, separation and fluid handling.

The company's equipment, systems and services are dedicated to assisting customers in optimizing the performance of their processes. The solutions help them to heat, cool, separate and transport products in industries that produce food and beverages, chemicals and petrochemicals, pharmaceuticals, starch, sugar and ethanol.

Alfa Laval's products are also used in power plants, aboard ships, oil and gas exploration, in the mechanical engineering industry, in the mining industry and for wastewater treatment, as well as for comfort climate and refrigeration applications.

Alfa Laval wins SEK 50 million waste heat recovery order

Alfa Laval's worldwide organization works closely with customers in nearly 100 countries to help them stay ahead in the global arena. Alfa Laval is listed on Nasdaq OMX, and, in 2016, posted annual sales of about SEK 35.6 billion (approx. 3.77 billion Euros). The company has about 17 000 employees.
