

Alfa Laval Exchange for freshwater generator plate packs

Fast, quality replacements to restore production

When your freshwater generator experiences a failure, the ability to keep downtime to a minimum becomes crucial. Alfa Laval Exchange gives you fast access to replacement plates as an efficient alternative to traditional repair.

What we do

If the plates of your freshwater generator have been damaged beyond your onboard repair capabilities, or if you need to restore operations before repair services can arrive, you can receive replacement plates quickly by exchanging the plate pack with Alfa Laval. At a considerable savings, we supply you with a good-as-new plate pack that has been fully reconditioned in the Alfa Laval workshop. This allows you to maximize uptime without sacrificing quality.

Benefits

- Exchange packs offer cost-efficiency when compared to purchasing new plates
- Quality is guaranteed – exchanges refurbished according to Alfa Laval OEM standards
- Faster delivery time
- Increased freshwater generator uptime

Scope of service

You receive exchange plate packs directly from the Alfa Laval workshop. For Alfa Laval freshwater generators, the following models type plate pack are available for exchange:

- Plate packs for DPU 36
- Plate packs for JWP-16 and 26
- Plate packs for AQUA
